Playaways

at your DeWitt Community Library!

- **No Cassettes!**
- **No CDs!**
- **No Downloads!**
- **No Hassles!**

These self-playing books are battery powered and can be played like an iPod or MP3 player. Playaways are an audio player and audio book all in one. Each title is prerecorded on a single player, saving you from having to "figure out the computer or lug around cassettes or CDs.

You can search for these titles by entering the term "playaway" in the General Topic/Anyword field. You will see Playaway at the beginning of the call number.

Playaways circulate with one playing device, one set of headphones, and an extra AAA battery. They are ready to play from the moment you check them out. You may use your own stereo headphone set if you wish. Enjoy listening to a book on this unique technology!

PLAYAWAY

The first self-playing digital audio book.
